DETAILED ACTION

Allowable Subject Matter

Claims 1-10 and 12-32 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The Pre-Brief Conference request has been considered and accepted as explaining how the invention differs from the previously cited prior art.

The following is an examiner's statement of reasons for allowance: The invention is a system for transcoding (converting from one format to another) video from the original format (such as a broadcast television program) to a format suitable to play on another device (such as an iPod) that would not have originally been able to play the video. Another aspect of the invention is for the transcoding device to convert control signals from the second device into a standard format that allows for other devices to control the transcoder. The cited art (specifically Kaars) teaches the transcoding of video, but not the transcoding of the control signals. A search of the prior art has not located this aspect of the invention and therefore the application is now considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
